

Nirbhoy

Homepage link:

<https://www.figma.com/proto/GQxqRn0FNH1b9eGOAUTNX8?node-id=27-26917&t=cE2GrxisT3HQxbsF-6>

Homepage:

✓ 1. Home Page – Welcome Section

How it works

When a user enters the website, they see a calm, safe, supportive intro. They can choose to log in or register through the buttons at the top-right.

Real-life view

A survivor opens the site at night, feeling scared and alone.

They see:

“A Safe Space for Survivors. A Stronger Voice for Justice.”

This reduces their fear. They understand this platform is meant for them.

✓ 2. Story Sharing Feature – “Share to Inspire, Heal, and Empower”

What this feature does

- ✓ Survivors can share their stories
- ✓ Posting can be anonymous
- ✓ No one can trace them
- ✓ Admin reviews posts to ensure safety
- ✓ Other users can read, react, and support

How it works technically

User clicks “See Next” or “Post”

Login → (optional anonymous username available)

Story submission form appears:

Title

Story text

Option to hide identity

Post goes to database

Moderators approve

Story appears on the public feed

Real-life view

A survivor writes:

“I was scared to speak about this for years. Today I want to start healing.”

Someone else reads it and comments:

“You are strong. You’re not alone.”

This emotional support helps both sides heal.

✓ 3. Image + Post Gallery Section

What this feature does

Shows posts from survivors

Shows awareness images

Provides inspiration

Creates a safe community-like feeling

How it works

Backend fetches recent stories

Frontend displays them as cards

Clicking a card opens the full story

Real-life view

A user scrolls and sees:

A motivational quote image

A survivor's story

A lawyer's advice post

This encourages them to explore more.

✓ 4. Trusted Legal Support

Purpose

✓ Helps survivors find professional legal help

✓ Connects them with real lawyers

✓ Provides guidance on FIR, reporting, evidence, and rights

✓ No physical visit needed unless required

How it works

User clicks "See Comment" or "Connect with Lawyer"

Page shows:

List of verified lawyers

Ratings

Specialization (rape, harassment, cyber crime, etc.)

Contact options (chat, call request, email)

User selects a lawyer

Lawyer receives the request

Lawyer contacts user within a few hours

Chat remains confidential

Real-life view

A survivor wants to report a stalker but is afraid.

They click "Trusted Legal Support" and send a message:

"I don't know how to file a case. Please help."

A lawyer replies:

"Don't worry, I will guide you step-by-step. You are safe."

This gives the user confidence to take action.

✓ 5. Account System (Login / Registration)

How it works

Simple signup

Option for anonymous mode

Two-factor authentication for safety

Password encryption

Real-life view

A worried user thinks:

“If my family sees my name, I’ll be in trouble.”

They click “Register anonymously”

System assigns username:

User#A92F

Their identity stays fully hidden.

✓ 6. Awareness Section (Video + Education)

(Visible in next pages you might add)

What it includes:

Self-defense videos

Legal rights explained

How to collect evidence

What to do after an assault

Protection from cyberstalkers

Real-life view

A girl who just got harassed in a street sees a video:

“How to respond safely to harassment in public.”

She learns how to protect herself and report the incident.

✓ 7. Real-Time Assistance Based on Location

(You mentioned you want this feature)

How it works

Uses phone GPS (only with user permission)

Finds nearest:

Police station

Hospitals

Legal aid centers

Women support cells

Real-life view

A girl is being followed by a man.

She opens Nirbhoy → clicks “Emergency Help”

App shows:

- ➡ Nearest police station: 700m
 - ➡ Tap to call emergency hotline
- This helps her react immediately.

✅ 8. Admin Dashboard (Your role)

Admin can:

Approve/reject survivor stories

Verify lawyers

Manage reports

Remove harmful comments

Track website activity

Maintain safe environment

Real-life view

Someone tries posting:

“Give me your address.”

Admin sees it → removes instantly.

You ensure the platform stays safe.

🔒 1. Registration Page (Select Role)

When a user clicks Register, the first page appears:

Choose Your Role

Register as Survivor/User

Register as Lawyer

Register as Admin (only admin secret code)

Each option is a separate button.

👤 2. Register as a User (Survivor)

Fields:

Name

Username

Phone

Email

Password

Confirm Password

How it works

User fills the form

System checks:

Username unique?

Email valid?

Password match?

If everything is correct → Account created

User sees message:

“Registration successful. Please login.”

🔑 3. Register as a Lawyer

Fields:

Full Name

Username

Email

Phone

Bar Council ID

Specialization (optional)

Password

Confirm Password

Behind the scenes

Lawyer account goes to Admin for approval

Once admin approves → Lawyer can login and help survivors

🛡️ 4. Register as Admin

Only possible with:

Admin Access Code (secret)

Username

Password

Admin is created manually.

🔑 5. Login System

After registration, the user returns to the Login Page.

Login Fields:

Username

Password

If details match →

User enters their dashboard.

! 6. Forgot Password System

When clicking “Forgot Password?”:

Step 1: User enters email address

Step 2: System sends reset password link to email

Step 3: User clicks the link → new page opens

Step 4: User enters:

New Password

Confirm New Password

Step 5: Password reset successful

Real Life Example

User registration:

Fariha wants to share her story but stay anonymous →

She registers as a User with username: brave_heart22

She logs in → writes her story safely.

Lawyer registration:

A lawyer named “Rahim Khan” wants to help survivors →

Registers → admin approves → he starts receiving legal help requests.

Password reset:

User forgets password → types email →

Receives reset link → sets new password → logs in again.

User:

<https://www.figma.com/proto/GQxqRn0FNH1b9eGOAUTNX8?node-id=19-4455&t=UbtD2HLnosXHk4J6-6>

USER DASHBOARD — FULL FEATURE EXPLANATION

Your screenshot shows the main user interface, where normal users (victims/survivors/general users) interact with lawyers, volunteers, and the community.

The User Dashboard is designed to be:

Simple

Safe

Anonymous-friendly

Support-focused

Below is a full breakdown of every feature visible.

TOP NAVIGATION BAR FEATURES

1. Profile

Users can view/edit:

Name

Email

Phone

Location

Profile photo

Password update

Users control what info they want public.

2. Inbox

This is the private chat area, where users can:

Talk to volunteers

Talk to lawyers

Ask for help

Receive guidance

Manage ongoing conversations

Inbox works like a private support chat.

3. Verified Lawyers

Shows a list of all verified, approved lawyers on the platform.

User can:

View lawyer profiles

Read their bio/specialization

Send them a help request

Choose a lawyer to talk with privately

4. Verified Volunteers

Shows the list of confirmed volunteers.

User can:

Select a volunteer

Request emotional support

Talk to volunteers anonymously (optional)

5. Notifications

Users get notifications for:

New replies

Lawyer/volunteer messages

Approved help requests

Comments on their posts

Admin updates

This keeps users updated in real time.

6. Logout

Safely logs the user out.

MAIN AREA — “Share Your Stories” Section

This is the central feature of the User Dashboard.

Users can share:

Personal experiences

Problems

Awareness stories

Questions

Requests for advice

★ Posting Options

Post

User writes a story or message without images.

Upload an Image

User can attach:

Evidence (optional)

Screenshots

Awareness photos

Illustrations

Images are optional.

Post as Anonymous

User can post stories without revealing identity.

This protects vulnerable users who don't want to share names.

📌 POST FEED (Stories from users)

The feed shows:

User posts (their own + from community)

Attached images

Comments from users, volunteers, lawyers

Each post includes:

1. Image section (optional)

If the user uploads an image, it appears here.

2. Post content

The text story or message shared by the user.

📌 COMMENT SYSTEM

Users can comment on stories in two ways:

1. Comment as Anonymous

Their name/profile will not appear.

2. Comment (normal)

Shows their real user profile name/photo.

Use cases:

Support others

Offer advice

Ask questions

Share similar experiences

📌 USER-SPECIFIC FEATURES (Platform Functions)

These features are unique to normal users in Nirbhoy:

✓ Request Help

From a lawyer (legal help)

or

From a volunteer (emotional support)

Users can choose:

"Request Lawyer Help"

"Request Volunteer Help"

Requests go to the Inbox once accepted.

✓ Chat With Professionals

If a lawyer/volunteer accepts the request:

A private chat opens

Users can share their issues safely

Lawyers help with legal questions

Volunteers help with emotional support

✓ See Verified Professionals

Users are always protected:

Only approved, real lawyers appear

Only background-checked volunteers appear

Prevents scams or unsafe interactions.

✓ Control Their Identity

Users can:

Post anonymously

Comment anonymously

Hide identity in conversations until they feel safe

This increases platform safety.

✓ Community Support

Users can:

Read others' stories

Give emotional support

Learn from awareness posts

Promotes healing and shared experiences.

★ WHY THE USER DASHBOARD EXISTS

The User Dashboard is built to allow:

Safe sharing of stories

Anonymous posting

Getting legal help

Receiving emotional support

Chatting privately
Viewing helpful awareness posts
Connecting with verified professionals

◆ Lawyer link:

<https://www.figma.com/proto/GQxqRn0FNH1b9eGOAUTNX8?node-id=27-17988&t=cE2GrxisT3HQxbsF-6>

✓ LAWYER DASHBOARD — FULL FEATURE EXPLANATION

The dashboard appears to be part of a platform (Nirbhoy) where lawyers can interact with users, view cases/stories, provide help, and manage their profile.

Below is the complete functional breakdown of every visible feature:

📌 TOP NAVIGATION BAR FEATURES

1. Profile

Lawyer can view and edit their personal and professional information.

Profile sections typically include:

Personal Info: Name, email, photo, short bio/description.

Basic Info: Phone number, location, password change fields (password, confirm password).

Button: Update Info → Saves changes to the database.

2. Inbox

Messaging area where lawyers can chat with clients.

Lawyers can:

View messages from clients.

Respond directly in a chat-style interface.

Continue ongoing conversations.

3. Verified Lawyers

Likely a list of all verified lawyers on the platform.

Might include:

Their names & photos

Specialization

Contact or chat request option

4. Verified Volunteers

Shows a list of screened volunteers helping victims.

Lawyers can collaborate or communicate if needed.

5. Notifications

Lawyers receive alerts such as:

New client requests

Messages from clients

Case updates

Post interactions (comments, likes)

6. Logout

Logs the lawyer out of the system securely.

MAIN SECTION — STORIES / POSTS AREA

This is the content-interaction zone.

A. “Share your stories” Header

Title for the posts feed.

On the right side, there are options:

Post – create a text post.

Upload an image – attach photos.

Post as anonymous – hides lawyer identity.

Use case:

Lawyers post awareness content: legal advice, safety tips, educational posts.

POST FEED STRUCTURE

Each post card contains:

1. Image (optional)

If the poster uploads an image, it appears on the left.

If no image, it may show a placeholder (like in the screenshot).

2. Post Content

The text/story content appears on the right or below the image.

3. Comments Section

Lawyers can comment under posts.

Options:

Comment as anonymous — hides their identity.

Comment — posts using the lawyer’s real profile.

Use case:

Lawyers give guidance or legal advice on posts shared by victims or users.

ADDITIONAL FEATURES (as per your description)

✓ Accept or Decline Client Requests

When a user requests help, the lawyer can:

Accept: A chat opens in the inbox.

Decline: User is notified, and request disappears from pending list.

✓ Awareness Content

Lawyers can share:

Legal knowledge

Rights information

Safety measures

Case examples (anonymous)

Educational posts with images

FULL WORKFLOW SUMMARY

1. Lawyer logs in → sees dashboard
2. They can update/update profile info
3. They can view posts/stories from users
4. They can comment (openly or anonymously)
5. If users contact them → appears in inbox
6. Lawyer can accept/decline cases
7. They receive notifications for all activity
8. They can create new awareness posts

Overall Purpose of Lawyer Dashboard

To allow lawyers to:

Interact safely and professionally with users.

Offer legal help easily.

Educate people through awareness posts.

Manage their own professional profile.

Handle client communications efficiently.

Volunteer:

<https://www.figma.com/proto/GQxqRn0FNH1b9eGOAUTNX8?node-id=27-22568&t=cE2Grxi sT3HQxbsF-6>

VOLUNTEER DASHBOARD — COMPLETE FUNCTION EXPLANATION

Volunteers on the Nirbhoy platform support users emotionally, guide them, and help route cases—but they do not provide legal advice. Their dashboard is similar to the lawyers', but with limited functions.

Below is the full explanation based on your design structure.

TOP NAVIGATION BAR FEATURES

1. Profile

Volunteers can update their personal details.

Sections include:

Personal Info

Name

Email

Profile photo

Short description (e.g., “Mental health volunteer”, “Support volunteer”)

Basic Info

Phone number

Location

Change password fields (password, confirm password)

Button: Update Info — stores all changes.

2. Inbox

This is where volunteers communicate with users who need emotional support or general guidance.

Volunteers can:

View user messages

Chat in real-time (like a support inbox)

Provide empathy, help, and safe guidance

Direct clients to lawyers if a case needs legal action

 Volunteers cannot give legal advice — only provide support.

3. Verified Lawyers

Volunteers can view the list of available lawyers in case a user needs legal help.

Possible actions:

View name + role

Redirect users to a suitable lawyer

Share lawyer list in chat

4. Verified Volunteers

Shows all verified volunteers on the system.

Use cases:

Collaboration for large support efforts

Creating awareness posts together

Covering urgent cases when one volunteer is unavailable

5. Notifications

Volunteers receive alerts such as:

New user messages

Assigned cases

Comments on awareness posts

Updates from admin or Nirbhoy platform

6. Logout

Logs out the volunteer securely from the system.

MAIN SECTION — STORIES / POSTS INTERFACE

This area functions the same as lawyers — it's a community interaction zone.

A. "Share your stories" Header

Volunteers can post awareness or helpful content.

Post options:

Post — write awareness or motivational content

Upload an image — attach pictures

Post anonymously — identity hidden

Allowed content:

Mental health awareness

Safety advice

Supportive messages

Community guidance

Not allowed:

Legal instructions

Sensitive private data

POST FEED STRUCTURE

Each post contains:

1. Image (optional)

Uploaded by the volunteer or user.

2. Text post

Awareness content or community stories.

3. Comment Section

Volunteers can comment on stories to support victims.

Options:

Comment as anonymous — hides volunteer identity

Comment — shows volunteer profile name and image

Common comments from volunteers:

Emotional support

Motivation

Safety instructions

Encouragement

Pathways to contact professionals (lawyers, support centers)

VOLUNTEER-SPECIFIC FEATURES

✓ Accept or Decline Support Requests

Users can request volunteers for emotional support.

Volunteers see pending requests and can:

Accept – starts a private chat in the inbox

Decline – request is removed from their list

Use cases:

Panic situation support

Crisis handling

Emotional guidance

Directing to proper help (lawyer or emergency services)

✓ Awareness Content Creation

Volunteers frequently post:

Mental health awareness

Anti-harassment messages

Safety from abuse tips

Encouragement posts

Social awareness images

This content appears publicly in the stories feed.

✓ Redirecting Clients to Lawyers

If a case involves:

Legal harassment

Domestic violence

Threats

Property issues

Criminal concerns

Volunteers can redirect the user:

“Please contact a lawyer from the Verified Lawyers section.”

★ Overall Purpose of Volunteer Dashboard

To allow volunteers to:

Provide emotional and psychological support

Guide victims safely

Help users access the right professional help

Communicate quickly in an organized inbox

Share helpful awareness content

Maintain a clean professional profile

Volunteers are the first line of emotional support before users reach professional lawyers.

Admin:

<https://www.figma.com/proto/GQxqRn0FNH1b9eGOAUTNX8?node-id=0-1&t=yrOHg3gn0Lxy6Lv3-6>

✓ ADMIN DASHBOARD — "MANAGE USER" FEATURE (FULL EXPLANATION)

The Manage User section is where the admin controls all user accounts on the Nirbhoy platform. This includes approving new users, handling user requests, blocking or deleting accounts, and monitoring user activity.

📌 WHERE IT IS IN THE DASHBOARD

Left Sidebar Menu →

Dashboard → Manage User

This opens the full user management panel.

📌 MAIN PURPOSE OF MANAGE USER

Approve or reject new user registrations

View all platform users

Manage active, pending, or suspicious accounts

Take action on violating users

Improve platform safety and privacy

📌 KEY FEATURES IN "MANAGE USER"

1. View All Registered Users

Admin sees a table/list with:

User name

Email

Profile photo

Registration date

Status (Active / Pending / Blocked)

Total posts shared

Total help requests

Action buttons (Approve, Reject, Block, Delete)

This gives the admin a quick overview of platform activity.

2. Pending User Requests

Some users may require manual approval (for verification or platform safety).

Admin can:

Accept user request

→ User becomes "Active" and can use the platform.

Reject user request

→ User account stays inactive or gets deleted depending on policy.

Typical reasons for pending requests:

Suspicious sign-up

Duplicate accounts

Admin-only approval mode enabled

3. Approve or Reject Users

Admin can evaluate user profiles and decide:

Approve — Grants full access

Reject — Denies entry

Request more info (optional UI addition)

Use cases:

Only allow trusted users

Reject malicious or fake accounts

Maintain platform safety

4. Block or Unblock User

Admin can block users who violate policies:

Harassment

Abuse

Posting harmful content

Misusing volunteers/lawyers

Block → user cannot log in

Unblock → restores access

5. Delete User Account

Admin can permanently remove a user from the system:

For extreme violations

Repeated ban evasion

Fake identities

This deletes all:

Posts

Comments

Chats

Help requests

6. View User Activity Summary

Inside each user's profile card, admin can see:

Total posts shared

Help requests

Comments

Interaction with volunteers/lawyers

Status history

This helps the admin decide whether to approve or block users.

7. Search and Filter

Admin can filter users by:

Name

Email

Status (Active, Pending, Blocked)

Most active

Most complaints

This helps in managing large user bases.

8. Export User Data

Admin can export reports:

User list

Pending approvals

Activity logs

Format: CSV, PDF, Excel (depending on your system)

HOW THE WORKFLOW LOOKS (Simple)

- ◆ Step 1: User signs up

User appears under Pending Users.

- ◆ Step 2: Admin reviews the user

Admin checks:

Profile info

Email validity

Activity history (if returning user)

- ◆ Step 3: Admin chooses action

✓ Accept

✗ Reject

🚫 Block (if suspicious)

- ◆ Step 4: User gets notification

Approved → They can log in

Rejected → They get a rejection message

PURPOSE OF THIS MODULE

This ensures:

Platform safety

Fake or harmful accounts don't get in

Victims stay protected

Only trusted users interact with volunteers & lawyers

Admin maintains full control

✅ ADMIN DASHBOARD — MANAGE LAWYERS (FULL EXPLANATION)

This module allows the admin to control all lawyer accounts on the platform.

Main Purpose

Verify lawyers before they interact with victims
Approve or reject lawyer sign-up requests
Monitor lawyer activity
Suspend or remove lawyers who violate rules

Key Features

1. View All Lawyers

Admin sees a list with:

Lawyer name

Email

Phone

Profile image

Verification status

Total cases handled

Total posts shared

2. Pending Lawyer Verification

Lawyers must be screened before access.

Admin checks:

Uploaded ID card

Bar council license or certificate

Profile details

Accuracy of information

Admin actions:

✓ Approve Lawyer — becomes “Verified Lawyer”

✗ Reject Lawyer — access disabled

3. Block / Unblock Lawyer

If a lawyer:

Harasses a client

Gives illegal advice

Breaks platform guidelines

Admin can block them instantly.

4. Delete Lawyer

Removes the lawyer’s account permanently.

5. Lawyer Activity Overview

Admin can see:

Total accepted requests
Total declined requests
Number of active chats
Number of awareness posts shared

✅ ADMIN DASHBOARD — MANAGE VOLUNTEERS

Volunteers provide emotional and social support, so admin must control who can join.

📌 Main Purpose

Approve volunteers
Monitor their activity and chats
Block unsafe or inactive volunteers

📌 Key Features

1. View All Volunteers

List displays:

Name

Email

Photo

Area of service

Total clients supported

2. Pending Volunteer Requests

Admin checks:

Profile details

Motivation or background info (if submitted)

Any uploaded documents

Admin decisions:

✓ Approve

✗ Reject

3. Suspend / Ban Volunteer

If volunteer:

Shares personal info

Harasses clients

Provides legal advice (not allowed)

Becomes inactive for too long

Admin can block them.

4. Volunteer Activity Dashboard

Admin can check:

Number of clients helped

Messages sent in chats

Post interactions

Complaint reports (if any)

ADMIN DASHBOARD — UPLOAD CONTENT

This module lets admin manage and post system-wide awareness content.

Purpose

To provide:

Educational posts

Safety guidelines

Legal information

Mental health content

Emergency contacts

Available for all users, lawyers, and volunteers.

Features

1. Upload Image / Video

Admin can upload:

Posters

Infographics

Short educational clips

2. Write Title & Description

Admin types:

A short title

Full description text

3. Choose Content Category

Categories may include:

Harassment awareness

Domestic violence

Mental health support

Legal rights

Crisis management

4. Publish / Save as Draft

Admin can:

Publish immediately

Save for later

5. Manage Existing Content

Admin can:

Edit

Delete

Repost

Hide/unhide

✅ ADMIN DASHBOARD — SETTINGS MODULE

This is the system control center.

📌 Key Settings

1. Admin Profile Settings

Update name

Change email

Change password

2. Platform Controls

Admin can decide:

Whether new users need approval

Whether volunteers require screening

Whether lawyers must upload verification documents

3. Security Controls

Enable 2FA

Password strength rules

Session timeout settings

Suspicious activity alerts

4. Reporting Settings

Admin can set:

How reports are submitted

Auto-ban settings

Report categories

★ ADMIN DASHBOARD — HOME OVERVIEW

This matches your screenshot.

Admin Home includes:

Total users

Posts shared

Help requests
Reports submitted
Case Status Overview
Open cases
In-progress
Closed
Pending
Reports & Statistics Graph
Daily / Weekly / Monthly views:
User growth
Help requests
Activity levels
Report trends
Export Data
Admin can export:
User list
Activity stats
Reports
Case data
Create Reports
Automatically generate:
Monthly safety report
Platform usage report
Lawyer/volunteer performance report

Complete Admin System Summary

Admin Can:

- ✓ Approve/reject users
- ✓ Manage lawyers
- ✓ Manage volunteers
- ✓ Track all activity
- ✓ Monitor cases and reports
- ✓ Post awareness content
- ✓ Control platform settings
- ✓ Handle security and violations

This is the central brain of your entire Nirbhoy system.
